

Ojaame Field Sales Playbook

POS, stock, receipts, customer balances, online shop, multi-store, roles.

Weekly focus

Mon: Phone/laptop shops - Stock mix-ups, missing items, who owes

Tue: Fash

Part 1: Before Monday (prep)

- Pick one vertical per day ? do not pitch everything.

- Mon: pho

Part 2: Cold walk-in

- Step 0: Ask who handles sales and stock ? not product name first.

- Step 1: C

Part 3: Full journey (7 stages)

- Interest ? Discovery ? Pilot ? Go-live ? Habit ? Expand ? Renew

- Interest:

Part 7: What 'won' means

- 14+ days: every sale in Ojaame.

- Owner c

Part 8: What to emphasize in Ojaame

- Quick Dashboard ? demo first.

- Stock aft

Part 6: Monday rhythm

- 8:30 ? hit list, charge phone, demo login.

- 9:30?12:

Playbook steps

Prospect Created

You logged this shop in the system after a walk-in, call, or Jiji lead.

Goal: Cap

Whatsapp Sent

First WhatsApp touch: confirm interest and book a demo or visit.

Goal: Get

Interest Confirmed

They said yes to learning more ? not yet a full demo.

Goal: Con

Discovery Done

Discovery = 15?20 min qualification. You listen, then pick ONE module to pilot.

Goal: Kno

Demo Done

Live demo on their counter: sale ? stock down ? today's total (5?7 min).

Goal: The

Pilot Agreed

They agreed to a 7-day pilot: real sales in Ojaame, limited products, one staff.

Goal: Writ

Business Provisioned

Auto when you convert prospect ? business in admin.

Goal: Con

Owner Active

Auto when owner completes signup from invite link.

Goal: Own

Products Loaded

Auto when at least 10 products exist in their store.

Goal: Eno

Pilot Week Complete

End of 7-day pilot: review numbers and decide continue or stop.

Goal: 10+

Go Live

Every sale channel uses Ojaame ? not pilot-only anymore.

Goal: Wal

Daily Use Confirmed

Owner uses Ojaame daily without you asking (14+ days target).

Goal: Hab

Subscription Active

Auto when subscription is active and paying (not trial-only).

Goal: Paio

Message templates

WhatsApp ? after they reply YES (Jiji)

Good [morning/afternoon] [Name],

Thanks for replying. I'm [Your name] ? I built Ojaame for sellers like you.

Quick question: do you struggle more with (1) stock not matching, (2) customers owing balance, or (3) not knowing daily sales total?

I can show you on your phone in 15 minutes ? video call or I stop by [area] this week.

What day works: [Tue 10am] or [Wed 4pm]?

WhatsApp ? 2 hours after cold visit

Good afternoon [Name],

[Your name] from earlier at [Shop name].

You mentioned [their exact pain].

I've attached a screenshot of how Ojaame shows today's sales + stock left.

If you're free [tomorrow/time], I'll set up your first 20 products free ? takes 20 minutes.

Reply 1 = yes, 2 = call me later, 3 = not now

Discovery sit-down ? close for pilot

Thanks for your time. I'll ask a few questions so I don't waste your time, then show only what fits.

1. What do you use today for sales and stock?
2. What went wrong last month ? stock, money, or staff?
3. How many people sell here daily?
4. If we fix one thing in 7 days, what must it be?

Based on that, I suggest we start with [Quick Dashboard / debt tracking / online shop] only.

Pilot: 7 days, your top 30 products, one staff. I set up free. You pay subscription only if you're using it daily by day 7. Fair?

Pilot agreement (WhatsApp)

Ojaame pilot ? [Shop name]

Start: [date]

End: [date + 7 days]

We will:

- Set up 30 products + opening stock
- Train [Staff name] + you
- Record all sales through Ojaame for 7 days

You will:

- Use Ojaame for every sale (notebook backup only 2 days)
- Tell me same day if something is slow

Success = 10+ sales/day in system + you check daily total yourself.

After day 7: continue on plan or stop ? no hard feelings.

Reply AGREE to start.

Go-live ? owner sends to staff group

From today: every sale must pass through Ojaame.

1. Open Quick Dashboard
2. Add item ? payment ? receipt
3. If item not in system, tell [Manager] same day

Owner checks closing report every night.

Day 7 pilot review

Last 7 days:

- Sales in Ojaame: [X]
- Days you checked total: [Y]
- Problems we fixed: [list]

Before: [their pain]

Now: [specific win]

Continue on [plan]? If yes, we add remaining products this week.

Objection handlers

They say: I have notebook, it works

You say: I

They say: My staff won't use it

You say: V

They say: Too expensive

You say: H

They say: I already have POS

You say: V

They say: Send brochure

You say: E

They say: Call me next month

You say: I
